timecard
because time is money

timecard LBS is a mobile tracking and timesheet solution that works from a wireless device, and connects to a website for back office management.

- Increased worker productivity
- More timely business decisions
- Reduced paperwork & time savings
- Helps document compliance with state and federal wage-hour laws

timecard LBS consists of:

Easy to use cell-phone software that allows your workers to be tracked through a business day and clock-in, take a break, change task and clock out - all directly on their cell phone or Blackberry Device**
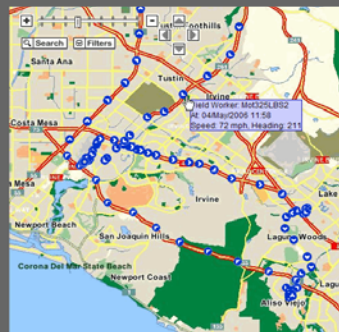

- LBS (Location, Movement, Speed and Direction, over 12 Triggers)
- Reports (Time, Attendance, Tasks, Sub Tasks, and many more)
- Custom and Editable Fields on Handsets (Mileage, Custom info from field, etc)
- Auto Start and Stop
- View multiple employee locations on the map
- Clock in and out multiple field workers from a single device.

**timecard** is ideal for companies that have a mobile workforce, such as:

- Construction
- Government
- Public Safety
- Transportation
- Distribution
- Healthcare
- Telecommunications
- Utilities, and many more!

Clock In

exit   menu

View Individual worker details including acitivty and current position.

The 'Breadcrumb' trail view shows speed, direction, location, and status of workers.

Mutiple rules can be setup based on triggers such as entering or exiting area, speed and movement.

Smart fences can be setup around any mapped location.

Get Started with Timecard and revolutionize your business....
